Paver Care Made Easy![™]

Paver Cleaner

Use Artisan to remove stains and discolorations that accumulate throughout the winter and during in-season use. Artisan can be safely used on pavers, brick, stamped concrete, exposed aggregate, block, stucco and other similar surfaces.

Efflorescence Remover

A fast acting, muriatic free product that safely removes efflorescence from pavers, brick, stone, concrete, exposed aggregate and other similar surfaces. A powerful remover that is non-fuming and non-corrosive to the skin. Restores surface to like new.

Poly Haze Remover

Removes stubborn poly haze from pavers, restoring the natural color. Simply spray on, lightly scrub surface and rinse to safely remove stubborn poly haze.

Heavy Duty Rust Remover

Removes deep seated rust stains from pavers, brick, concrete, precast, exposed aggregate and most other masonry surfaces. Designed for the most difficult to remove rust stains.

Light Duty Rust Remover

Quickly removes light surface rust that generally occurs from sprinkler systems. Use to remove surface rust from pavers, brick, concrete, precast, exposed aggregate and most other masonry surfaces.

Grease & Oil Emulsifier

A water based, concentrated and biodegradable product that is safe and effective. This product does not contain any phosphates or harsh solvents. Excellent for all masonry surfaces.

Grease & Oil Remover

Lifts and absorbs grease, oil and other deep seated contaminants from masonry surfaces. No dilution or scrubbing necessary. Simply apply onto stain and allow to dry. Removes stains and restores surface to original condition..

Penetrating Water Repellent

An invisible and breathable treatment designed for use on pavers, brick, concrete, precast, exposed aggregate and most other masonry surfaces. Protects against efflorescence, cracking and spalling.

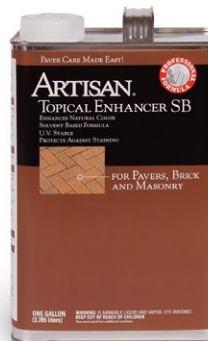

Penetrating Color Enhancer

Provides a rich, vibrant finish with a matte finish. A breathable treatment designed for use on pavers, brick, concrete, precast, exposed aggregate and tumbled and flamed natural stone. Protects against efflorescence, cracking and spalling.

Acrylic Protective Sealer

A superior, water based sealer that is formulated with a nano-particle acrylic resin for unsurpassed protection and durability. This sealer is U.V. resistant and gives a satin sheen. Excellent for all masonry surfaces.

Topical Enhancer

High gloss, topical sealer for ultimate color enhancement. A solvent based product that is U.V. resistant and extremely durable. Excellent for all masonry surfaces.
