

Product Information

KRC-7® RESTORE

DESCRIPTION & USES

KRC-7® RESTORE is an environmentally friendly product (per DfE) for cleaning and restoring a wide variety of difficult to clean surfaces. It will safely and effectively remove soap scum, hard water stains, rust, mineral deposits, grease, and other contaminants from non-slip tubs, ceramic, porcelain, clay tile, fiberglass, plastic, stainless, copper, brass, aluminum, wood and glass surfaces. RESTORE does not contain any bleach, abrasives, caustic, muriatic acid, phosphoric acid or petroleum distillates. RESTORE is non-flammable and non-fuming.

PREPARATION

For best results, test before general use. Following the directions on the bottle, apply directly onto surface and let stand for several minutes. Agitate and rinse thoroughly. Allow test area to thoroughly dry to determine compatibility and color fastness.

APPLICATION

Even though RESTORE is generally used undiluted, it can be diluted for light cleaning and mopping. After determining solution strength (if diluting), apply solution onto a dry surface. Apply from the bottom up, on vertical surfaces. Let solution stand for several minutes, agitate and rinse thoroughly. A second application and/or longer dwell time might be needed on certain surfaces. Maintain surface with KRC-7 PROTECT.

PACKAGED

RESTORE is available in quarts (12/case), gallons (4/case), 5 gallon pails and 55 gallon drums.

SAFETY AND HANDLING

For specific information, please refer to the label and material safety data sheet. Close container after each use. Keep out of reach of children. Do not mix RESTORE with any other cleaners. Wear rubber or latex gloves and eye protection. Avoid splashing.

STORAGE AND SHELF LIFE

The shelf life is 5 years in closed containers. Store in a cool, dry place. Protect from freezing.

PROPERTIES

Appearance	Clear/straw liquid
Odor	Cherry
Flash Point	N/A
pH	1.0
lbs/gallon	9.20 - 9.25

WARRANTY

Chemique, Inc. warrants that this product is free from defects. Where permitted, Chemique makes no other warranties, express or implied, including without limitation the implied warranties of merchantability or fitness for particular purpose. The purchaser shall be responsible to make their own tests to determine compatibility and suitability for their particular purpose. Chemique's liability shall be limited to supplying enough product to re-clean, re-treat and/or re-seal the specific areas which defective product was applied.
