

StripIt®

Extra Heavy Duty Alkaline Remover

DESCRIPTION & USES

Stripit Extra Heavy Duty Alkaline Paint Remover is a specialized, water based remover for interior or exterior use. It is a highly effective remover for specialized, industrial coatings and treatments. StripIt is also very effective removing graffiti and paint from masonry, brick and stone. StripIt does not contain any methylene chloride, NMP, petroleum distillates or acids.

StripIt is designed to remove cross-linked polymers, curing agents and silanes. Stripit can be used on concrete, brick, stucco, block and most other masonry surfaces.

PREPARATION

Test to determine compatibility and dwell time before general use. Work in small, manageable areas, rinse and allow to dry before general application. Protect surrounding surfaces, plants and vegetation.

PROPERTIES

Appearance	Amber gel
Odor	Mild
Flash Point	n/a
pH	14
lbs/gallon	10.5 lbs.

APPLICATION

Do not dilute Stripit. Apply liberally to a dry surface using a brush, roller or sprayer. Allow sufficient time to penetrate the surface. Let stand for several hours to 1-2 days, depending on the surface, type of coating or graffiti and/or the number of layers. Rinse or power wash to remove any remaining residue. A second application or longer dwell time may be necessary. After removal process is complete, neutralize with StripIt Neutralizer.

COVERAGE

Coverage varies depending upon the type of product being removed and application method, but is generally between 50-75 square feet per gallon.

PACKAGED

Stripit is available in gallons 5 gallon pails and 55 gallon drums.

DISPOSAL

Use completely or dispose of properly. Local requirements vary. Consult your local sanitation department or state designated environmental agency.

STORAGE AND SHELF LIFE

Store in a cool, dry place. Store away from incompatible materials.

SAFETY AND HANDLING

DANGER: Corrosive Liquid. **KEEP OUT OF REACH OF CHILDREN.** For specific information, please refer to the material safety data sheet. Wear chemical resistant gloves, apron, footwear and goggles. Refer to product label and material safety data sheet for complete safety information.

Use only with adequate ventilation. Do not breathe spray mist. Ensure fresh air entry during application and drying. Avoid contact with eyes and contact with skin. Avoid exposure to mist by wearing a NIOSH approved respirator during application and clean up. Follow respirator manufacturer's directions for respirator use. Close container after each use. Wash thoroughly after handling.

Refer to Material Safety Data Sheet available for further safety and handling IN CASE OF SPILL: Absorb with inert material and dispose of properly. KEEP OUT OF REACH CHILDREN. **FIRST AID:** In case of eye contact, flush with water for 15 minutes. Get immediate medical attention. In case of contact with skin, wash with soap and water. If you experience difficulty breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical attention immediately.

WARRANTY

Information and recommendations for this product are based on research performed by Chemique, Inc. and the research of others, and are believed to be accurate. However, no guarantee of the accuracy is made because we cannot cover every possible application of our products, nor can we anticipate every variable that may be encountered regarding types masonry surfaces, job conditions, degradation, weathering, age and methods used. The purchaser and end user must make their own tests to determine the suitability of such products for each particular purpose.

Chemique, Inc. warrants this product to be free from defects. Chemique makes no other warranties with respect to this product, express or implied, including without limitation the implied warranties of merchantability or fitness for particular purpose. Chemique, Inc.'s liability shall be strictly limited to supplying sufficient product to re-clean the specific areas which defective product was applied.
