

StripIt® Final Wash Safety Data Sheet

Section 1. Identification

Product Name: StripIt® Final Wash

Recommended use: Removes residual paint stripper

Restrictions on use: Use only as directed

Manufacturer Name: Chemique, Inc.
Address: 315 N. Washington Avenue
Moorestown, NJ 08057
Telephone number: (856) 235-4161

Emergency phone number: (800) 535-5053 (Infotrac)

Date of Preparation: November 5, 2014

Section 2. Hazard(s) Identification

Note: This product is a consumer product and is labeled in accordance with the US Consumer Product Safety Commission regulations which take precedence over OSHA Hazard Communication labeling. The actual container label will not include the label elements below. The labeling below applies to industrial/professional products.

Classification:

Physical	Health
Not hazardous	Eye Irritation Category 2A

Danger!

Hazard statement(s)

Causes serious eye irritation.

Precautionary statement(s)

Wash thoroughly after handling.
Wear eye protection.
IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical attention.

Section 3. Composition / Information on Ingredients

Chemical name	CAS No.	Concentration
Non-hazardous Ingredients	Mixture	70-90%
Benzyl Alcohol	100-51-6	1-10%
Surfactant	Proprietary	1-10%

The specific identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

Section 4. First-Aid Measures

Inhalation: Remove victim to fresh air. If irritation occurs or breathing is difficult, get medical attention.

Skin contact: Remove contaminated clothing. Wash skin with soap and water. Remove contaminated clothing and launder before reuse. Get medical attention if irritation or symptoms develop.

Eye contact: Flush eyes with water for several minutes while lifting the upper and lower lids. Get medical attention.

Ingestion: Rinse mouth with water. Never give anything by mouth to a person who is unconscious or convulsing. Get medical attention.

Most important symptoms/effects, acute and delayed: Causes eye irritation. Prolonged skin contact may cause irritation. Vapors or mists may cause irritation to mucous membranes and respiratory tract. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Indication of immediate medical attention and special treatment, if necessary: No immediate medical attention is required.

Section 5. Fire-Fighting Measures

Suitable (and unsuitable) extinguishing media: Use any media that is suitable for the surrounding fire.

Specific hazards arising from the chemical: Combustion may produce oxides of carbon, nitrogen and sulfur, hydrogen chloride, and methyl chloride.

Special protective equipment and precautions for fire-fighters: Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus. Cool fire exposure containers with water.

Section 6. Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures: Wear appropriate protective clothing and equipment to avoid eye and skin contact.

Environmental precautions: Avoid release to the environment. Report spill as required by local and federal regulations.

Methods and materials for containment and cleaning up: Collect with an inert absorbent and place into an appropriate container for disposal. Wash spill area with water.

Section 7. Handling and Storage

Precautions for safe handling: Avoid contact with eyes, skin and clothing. Avoid breathing mists or aerosols. Use with adequate ventilation. Wash thoroughly after handling.

Conditions for safe storage, including any incompatibilities: Store in a cool, well ventilated area away from oxidizing agents and other incompatible materials. Protect containers from physical damage.

Section 8. Exposure Controls / Personal Protection

Exposure guidelines:

Chemical Name	Exposure Limit
Non-hazardous Ingredients	None Established
Benzyl Alcohol	10 ppm AIHA WEEL
Surfactant	None Established

Appropriate engineering controls: Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

Personal Protective Equipment:

Respiratory protection: Good general ventilation (equivalent to outdoors) should be adequate under normal conditions. For spray application or areas where exposures are excessive, a NIOSH approved respirator with organic vapor cartridges should be used. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.

Skin protection: Butyl rubber or other impervious gloves are recommended to avoid prolonged skin contact.

Eye protection: Chemical safety goggles should be worn if splashing is possible.

Other: For operations where contact can occur, an eye wash facility should be available.

Section 9. Physical and Chemical Properties
--

Appearance (physical state, color, etc.): Clear to slightly turbid liquid

Odor: Slightly sweet odor

Odor threshold: 5.55 ppm (benzyl alcohol)	pH: Not available
Melting point/freezing point: Not available	Boiling point: Not available
Flash point: Not flammable	Evaporation rate: Not available
Flammability (solid, gas): Not flammable	
Flammable limits: LEL: Not available	UEL: Not available
Vapor pressure: Not available	Vapor density: Not available
Relative density: 1.0	Solubility(ies): Not available
Partition coefficient: n-octanol/water: Not available	Auto-ignition temperature: Not available
Decomposition temperature: Not available	VOC: 0 g/L

Section 10. Stability and Reactivity

Reactivity: Not expected to be reactive

Chemical stability: Stable

Possibility of hazardous reactions: None known.

Conditions to avoid: None known.

Incompatible materials: Avoid oxidizing agents, reducing agents, acids and alkalies.

Hazardous decomposition products: Thermal decomposition may produce oxides of carbon, nitrogen and sulfur, hydrogen chloride and methyl chloride.

Section 11. Toxicological Information

Acute effects of exposure:

Inhalation: Vapors or mists may cause mucous membranes and upper respiratory tract irritation.

Skin Contact: Prolonged skin contact may cause irritation.

Eye Contact: Liquid or mists may cause irritation with redness tearing and blurred vision.

Ingestion: Swallowing large amounts may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Chronic Effects: None known.

Germ Cell Mutagenicity: None of the components have been shown to cause germ cell mutagenicity.

Reproductive Toxicity: None of the components have been shown to cause reproductive or developmental toxicity.

Carcinogenicity: None of the other components of this product are listed as carcinogens or suspected carcinogens by IARC, NTP, or OSHA.

Acute toxicity values: Acute Toxicity Estimate for the product: Oral >25,000 mg/kg

Benzyl Alcohol: Oral rat LD50 1620 mg/kg, Inhalation rat LC50 >4.178 mg/L/4 hr (maximum achievable concentration, no animals died)

Surfactant: No toxicity data available

Section 12. Ecological Information

Ecotoxicity values:

Benzyl Alcohol: 96 hr LC50 Pimephales promelas 460 mg/L, 48 hr EC50 daphnia magna 230 mg/L, 72 hr EC50 Pseudokirchnerella subcapitata 770 mg/L

Surfactant: No data available

Persistence and degradability: Benzyl alcohol and surfactant are readily biodegradable.

Bioaccumulative potential: Benzyl alcohol has a calculated BCF of 0.3.

Mobility in soil: Benzyl alcohol is expected to be highly mobile in soil.

Other adverse effects: None known.

Section 13. Disposal Considerations

Dispose in accordance with all local, state and federal regulations.

Section 14. Transport Information

	UN Number	Proper shipping name	Hazard Class	Packing Group	Environmental Hazard
DOT		Not regulated			None
TDG		Not Regulated			None

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code): Not applicable – product is transported only in packaged form.

Special precautions: None known

Section 15. Regulatory Information

Safety, health, and environmental regulations specific for the product in question.

CERCLA Hazardous Substances (Section 103)/RQ: This product is not subject to CERCLA reporting requirements as it is sold. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

SARA Hazard Category (311/312): Acute Health

EPA SARA 313: This product contains the following chemicals regulated under SARA Title III, section 313:
None

CALIFORNIA PROPOSITION 65: This product contains the following chemicals known to the State of California to cause cancer or reproductive toxicity (birth defects): None

EPA TSCA Inventory: All of the components of this product are listed on the TSCA inventory.

CANADA:

Canadian CEPA: All the components of this product are listed on the Canadian DSL.

Canadian WHMIS Classification: Class D, Division 2B (toxic material causing other toxic effects)
This product has been classified under the CPR and this SDS discloses information elements required by the CPR.

Section 16. Other Information

SDS Revision History: Converted GHS format. All sections revised.

Date of preparation: November 6, 2014

Date of last revision: New SDS
